Local and Foreign News.

The latest intelligence received by express from Cariboo, continues to be of a character to inspire the greatest confidence in the country. We have no great strikes to record, no fresh discoveries to announce, but the sum of the news is of greater importance to our community in its present condition. The various Company's on Williams Creek and its tributary gulches, on Grouse, Lowhoo, Lightning, Antler and the minor creeks, appear to be busily occupied, and a fair and steady yield of gold was the reward of their labors in most cases. Trade was healthy, money circulating as a natural consequence more freely, and in the words of the *Sentinel* "it would be difficult to find an idle man around the towns." Let the result of operations at Canyon Creek, Bridge River, Big Bend and elsewhere, be what they may, it is to Cariboo that we must look this season for our "ways and means," and there is every present indication that she will fully sustain our highest estimates.

After a respite of several days, the telegraph again speaks and brings us some highly important fragments from the East. The Atlantic cable, concerning which so much interest is manifested by the civilized world, bids fair to be a grand success this year. Everything that human ingenuity and science can suggest towards insuring a triumph, has been called into requisition on this occasion, and we may perhaps venture the assertion, that before the lapse of another week, we may have direct communication with Great Britain. On the 13th instant, the fleet left Valentia Bay, having spliced the shore end of the cable, and on the 14th, the date of our advices from England, 134 miles had been paid out, with perfect insulation.

European affairs are seemingly more complicated and threatening than ever. The French mediation is a failure and peace may be still regarded as out of the question. The belligerents in the interval, were carrying on a vigorous campaign. The Prussians had, according to London journals, advanced to within a few days march of Vienna, with no great obstacles existing to oppose their march. Thrown again upon her own resources, Austria was girding her loins and nerving herself for the contest, determined, if she could, to maintain her position among the great powers of Europe; we admire her pluck, but fear that unless the armed intervention of France, vaguely hinted at in the news, is soon determined upon and carried into effect, her hopes will be sadly crushed. From the Italian border the news is meagre beyond the fact that the eastern division of the Italian army had succeeded in making its first master of Padua, in Venetia, within twenty-two miles of Venice, with which city it communicates by rail. The Austrians were concentrating their forces for the defence of Tyrol, and Austria. It remains to be seen what fresh move the appearance of the French fleet in the Adriatic will produce on the political chess board.

Montana.

We clip the following from the Montana Post of June 30th.
The Favorite left for below on the 22d inst, crowded with passengers.
Two organized companies have started to open the coal beds found not far below Benton, for the purpose of supplying steam-boats.
Freight disappears rapidly, and there is now but little remaining on the banks.
Several other steamers, among them the Helena, were, on the 22d, daily expected.
Mr. Sweeney cleaned up on Thursday the 28th inst., the sum of \$1,869 12½, the result of seven days sluicing, having only three men in each shift the stir upon our streets increases, and business men acknowledge a steady revival in trade, as the season advances. About the 15th of August we may expect brisk times; still the trade will increase in proportion as stocks become larger and more varied.

Oregon.

Charles Gaylord has introduced a steam thrasher into Benton county.
A company of miners have opened a claim on John Day's river, this season, from which they are taking an average of one ounce a day for each man.
A fire occurred at Eugene City on the 20th, destroying an old stable containing some hay, grain and a wagon. The bucket rangers prevented the spread of the flames to other buildings.

THE PRINCE OF WALES.—A correspondent of the *Pall Mall Gazette* complains that the Prince of Wales is being talked of in society as being a little wanting in "princely courtesy"; that, on the recent occasion of the Royal Academy he exhibited impatience at the ceremonies and a want of consideration for the eminent men by whom he was surrounded. What is really said in society is, that the speaking was mediocre and the Prince was bored. A hint was given to intending orators to be brief, which hint was received with particular disgust by the orators. At length the Prince could stand it no longer, but left abruptly before the list of toasts was concluded.

SPECIAL TO THE COLONIST AND CHRONICLE.

YESTERDAY'S DESPATCHES!

China.

San Francisco, July 25th.—The ship *Silo*, G. 6-man, 50 days from Hongkong, arrived this morning. Hon W. M. Pinnle, is appointed acting Colonial Secretary for Hongkong. The Coolie ship *Jeddo* was destroyed by fire off the Java coast on the 16th April. A mutiny had previously occurred, and ten men were flogged and put in irons. The chief mate, an apprentice, and forty emigrants were lost. The British ship *Denmark*, from London to Hongkong, stranded on Yashan shoals May 25th. It is not known whether the crew were saved or not. An expedition against the pirates on the west coast by English gunboats, had been very successful. On arriving at Linton, the rendezvous of the pirates, the people having fled, the Chinese soldiers went ashore and burned the deserted houses. The expedition then penetrated to Namsen, when Lieut. Maunier landed with a small force and approached the village cautiously. Suddenly a masked battery opened on him, but after a sharp engagement he silenced and took it. This is the first time pirates have been successfully met in their own haunts.

LAST NIGHT'S DESPATCHES.

Europe.

New York, June 23.—The *Scotia*, from Liverpool, 24th, has arrived this evening. Consols closed 86½-86 5/8 for money. 5/20's 67½. Cotton, on Friday, was more active in the prospect of peace. Saturday's market was dull with little inquiry. Broad-stuffs market closed steady on Saturday and a little easier. Accounts of the French mediation are conflicting, nothing authentic has yet transpired. The threatened armed intervention is not confirmed, but French vessels have gone to Venetia.

The *Times* declares that England should not follow France in an intervention that tends to aggravate evils.

The Prussians were still advancing on the road to Vienna, their headquarters being at Szwittan with the vanguard reported at Snaua.

London papers regard the Prussians within from 8 to 10 days march of Vienna, with no great obstacle to overcome.

Benedek's army was rapidly reorganizing. On the 11th it mustered 160,000 men exclusive of cavalry and artillery. General Cialdini has occupied Padua. The Austrians were concentrating their forces for the protection of Tyrol and Austria. Gen. LaMarmora has resigned.

The Paris *Moniteur* says peace negotiations are still progressing. The best of feeling prevails between France and Prussia.

The Vienna press of Saturday evening says that Napoleon's mediation is ended for the present, and Austria must trust to her own strength and resources. She is resolved to make the most strenuous exertion to maintain her position as a great power.

The Birmingham Banking Company had suspended on the 14th. Liabilities over two millions pounds. A severe calamity for a large Birmingham house.

The very latest from Paris reports bourse firm; rentes, 68½. 600. The fleet arrived off Valentia on the 13th, and the cable was successfully spliced to the shore end. Signals have been sent through the entire cable. The Great Eastern had commenced paying out, 134 miles had been laid at last accounts, and the signals were perfect.

California.

San Francisco, July 26.—The steamer *Orizaba*, 49 hours from the Columbia river, arrived this forenoon.

No later gold quotations received. Market for Legal Tenders quiet at 71 buying, 71½ selling.

Sailed—British ship *Cormorant*, Liverpool; ship *Cogimbo*, Port Madison; bark *Live Yankee*, Puget Sound.

Portland, July 26.—Steamer *Montana* arrived from San Francisco this afternoon. The *Oridanne* is advertised to leave for the bay on Saturday morning, and the *Montana* on Saturday evening.

Weather pleasant.

GERMAN DELICACIES.—A Heidelberg letter in the *Continental Enquirer* says: The Germans eat no breakfast. They drink a cup of coffee in the morning and eat their first meal at noon. This, in fact, is the only meal they have, as at night they have nothing more than a cup of coffee and bread. Butter is seldom eaten. It is never on the dinner table. What the best long in eating they make up in beer drinking. But they have some delicacies, here in Germany, which, I think, are not to be found in America. One of these is horse flesh. This is eaten in great quantities, especially in North Germany. There are thousands of horses killed every year in Berlin. As it is dear it can only be eaten by the upper tier. It makes a very fine looking steak, and has a sweetish taste. Another delicacy is a goose liver pie. A peasant woman takes a goose, holds its mouth open, and stuffs corn down its throat until it is full, she being able to put near two pints in it. The goose is then shut up where it is compelled to lie still. The operation is repeated three or four times a day. This causes an unhealthy growth of the liver, which increases to ten times its natural size. The goose is then killed and the liver made into pies. Strasburg is noted, over all Europe, for these pies. But the most delicate of all the delicacies is schnepfendreck, which is to be had only at the largest and most fashionable hotels. The schnepf is a peculiar snipe which is found along the creeks and rivers. The excrement of this bird is carefully collected and sold to the hotels at a large price, where it is served up in butter and relished by the epicure. This is not imaginary, as schnepfendreck can be had at the principal hotels on all occasions.

A very foolish man proposes to walk across Niagara river at the falls this summer on a small wire, carrying his wife and son on his back. He also proposes to walk across as the American eagle, and is now having a large leatheren cage, which will be filled with feathers, and otherwise manipulated so as to resemble a live eagle of monstrous proportions. This is to fit closely about his body, and on walking the wire, he will balance himself by flapping his artificial wings. At the same time a rope is to be suspended by him to the wire, to which his son, a boy eight years old, will cling, and go through with various athletic performances as his father advances across the Falls.

School Examination.

The pupils of Mrs Wilson Brown's Church Bank School, underwent an examination yesterday before a large number of lady and gentlemen visitors, among whom we noticed Dr Helmecken, Speaker of the Legislature Assembly; Hon. Allen Francis, U. S. Consul, and Mrs Francis; Rev Mr Somerville, Superintendent of Education Waddington; Mr and Mrs Pickett; Mrs MacFarlane; Mrs Munro; Mrs Lowie; Mrs Frankel; John Tod, Esq., E. Marvin, Esq., were present. The pupils—who are all girls—showed great proficiency in the various branches in which they were examined. The first class in arithmetic, astonished all by the aptness of their answers. In geography and history, the responses were rapidly given and were very correct. In French, the pronunciation was excellent, considering the short time the scholars have been under the instruction of Madame Lange. The company were delighted at intervals between the exercises with piano music by the pupils, who are under the musical direction of Professor Digby Palmer, upon whom the performances reflected much credit. A trio, from *Fru Diacolo*, by Miss Huldah Francis, Miss Annie Fry, and Miss Annie Helmecken, was faultlessly executed; and a quartette, by Miss Huldah Francis, Miss Eliza Francis, Miss Annie Fry and Miss Annie Helmecken, received deserved commendation, while a trio, by Elise Peers, Kate Tod and Edith Carr, made a most favorable impression—especially with regard to the first-named, who is scarcely six years of age. The first prize—a lady's gold watch—the gift of Mrs Brown, was presented to Miss Huldah Francis, daughter of the American Consul, as a reward for excellent conduct; and the prizes for the greatest number of marks during the twelve months, including all studies, were awarded to Edith Carr, Minnie Pickett, Annie Helmecken, and Annie Fry. The following is the order in which the prizes were given:

The First Prize—(a gold watch) for excellent conduct, was awarded to Miss Huldah Francis.

Conduct and Application—Minnie Peers, (Dr Helmecken's prize); Annie Fry, Blanche Palmer, Annie Helmecken, Minnie Jungermann.

The Prize for the greatest number of marks, including all studies for twelve months—Edith Carr, Minnie Pickett, Annie Helmecken, Annie Fry.

Geography—Lizzie Watkins.
History—Eliza Francis.

Arithmetic—Minnie Pickett, Annie Helmecken.

Music—1st Prizes, Huldah Francis, Annie Helmecken, Annie Fry, 2nd Prize, Edith Carr, Eliza Francis, Kate Tod, Minnie Peers, Elise Peers.

Drawing—Huldah Francis, and Minnie Peers, (Dr Helmecken's prizes).

Needlework—Alice Palmer, Minnie Jungermann.

The 1st Prize in the 2nd class, presented by Dr Helmecken, was awarded to Ella Edwards; and Mrs Brown's 1st Prize, to Eliza Ballen. The 2nd Prize in the 2nd class, were carried off by Mary Munro, Brenda Peers and Clara Carr.

After a dance, and tea in the evening, the scholars separated for the holidays, which will last about a month. In closing this brief notice of a most meritorious examination, we must in justice award a word of praise to Mrs Brown, whose unwearied watchfulness and care is evidenced by the proficiency of the pupils entrusted to her tuition.

The Pandora Street Murder.

INQUEST—SECOND DAY.

(Before A. F. Pemberton.)

Jas. Worcester recalled, identifies a pair of shoes produced as the property of the deceased—knew them by repairs made with black thread; also identifies a coat produced as the property of deceased; it had been mended with black thread under the left arm. Deceased wore the shoes on Sunday. He must have had them on as they were not in the house on that day.

A witness named Taylor, deposed to having seen deceased on Sunday night at Welch's.

Jas. Livermore saw the deceased on Saturday night, about 8 o'clock, he had on the shoes produced, a dark coat, and dark pants. *Re Mr Browning* identified a gold ring produced. On Tuesday at noon, two Indians whom witness knew, came to the door, and said they had a ring for sale; they were two of them, named Tom and Jim; Tom said Jim had a ring for sale; the ring was produced, and I asked them where they got it; Tom replied that Jim got it from Gompertz; I asked them how they got it from Gompertz; one of them replied that Jim had worked for Gompertz, who had no money, and gave him the ring instead of \$20; they wished me to sell it for them; I asked why they wanted to sell the ring, and Tom said Jim had a wife and wanted bread.

Witness detained the ring, and handed it to the Police.

Henry Evans—Knew deceased; he showed me his ring in my cabin on Saturday. (Witness here minutely described the ring, which he identified when produced.)

T O'Connor also identified the ring as belonging to the deceased.

Mr Fritchard was positive as to the identity of the ring, having lived in the same cabin with deceased last winter.

Champana, a half-breed, knew deceased, and identified the shoes produced.

Tom, one of the Indians referred to by the Rev Mr Browning, was put in the witness box and examined respecting the movements of Jim, his square and tiliens, but appeared loth to make any disclosures. The ring, he said, Jim told him he got at New Westminster, at 8 o'clock, and went to sleep. Jim and his klotchman, and an Indian named Tim, were there; he did not know deceased, or that a man had been killed, until told so by Mr Browning; knew a white shirt produced, it belonged to Jim, and was washed by his

Klotchman on Monday. (There were blood stains on the breast.)

Tinahly, another Indian, was sworn, but after a close examination by Mr Pemberton, nothing material was elicited, except that he denied that he slept with Tom on the night of the murder, and said that he slept at his sister's house. The witnesses were confronted, and both persisted in their statements.

Annie, a Squamish Indian woman, was next called, and made the following improbable statement: I slept in my house on Sunday night with my man, Jim, Tom, and a boy, whose name I do not know; I think he has gone to New Westminster to-day in the steamer; we did nothing particular; we slept; I know the ring produced a man, named Gompertz, gave it to Jim as payment; Timothy did not sleep in the house with us on Sunday night; a long time ago, perhaps a year, perhaps three months ago, Jim had the shoes; before I had a child Gompertz gave the ring; perhaps Jim bought the shoes at New Westminster; they were old at the time he got them; I knew the shirt produced; it is Jim's; the stain on it is dirt; I washed the shirt in New Westminster; I never washed it in Victoria; Jim did not wear the shirt on Sunday night; it was in a box, I know the coat produced; a long time ago it was Jim's coat; the shirt produced is mine; I got up early on Monday morning; Tom got up early and lighted the fire; as soon as the sun got up on Monday Jim, Tom, and the boy, walked out together with me.

This concluded the inquiry, and the Court having been cleared the jury returned a verdict of "wilful murder, against some person or persons unknown," in which the Coroner concurred.

THE MELBOURNE DIFFICULTY.—The dead lock in Victoria appears to have ended. The Ministry, yielding, it must be supposed, to the strong remonstrances from England, have sent up the Appropriation Bill to the Council without the tariff tacked on to it and it has been passed. The Tariff Bill will probably pass subsequently, and the struggle may be considered over, though it has revealed the unpleasant fact that when the two Houses quarrel there is no possibility of compromise. If both are maintained, some sort of provision must be made, enabling the representatives by a two-thirds vote to act without the Council's concurrence. The recall of Sir Charles Darling was creating some excitement, but we are not told of what kind.—*Spectator*.

Mounted Volunteer Corps.—Mr D. B. Ring has received a reply from His Excellency the Governor, respecting the formation of a mounted volunteer corps. Governor Kennedy conveys "his best thanks to the gentlemen for their offer of service, and highly appreciates the loyalty and public spirit which it evinces, but deeply regrets, that in the absence of any law which would enable him to organize the force in a legal and satisfactory manner, he is compelled, although most reluctantly, to decline it for the present." Let the Legislature push forward the Militia Bill, which has yet to come up for the second reading.

SCANDAL IN CARIBOO.—The notorious Mrs Mary Nathan, who figured some time ago in our Police Court, was summoned recently before Judge Cox by John Collins, her paramour, for unlawfully possessing herself of property belonging to the Arcade Saloon, at Barkerville, to the value of \$250, alleged to belong to complainant. The accused said the property was hers, and charged Collins with pawing her jewelry. Mutual recriminations were indulged in, and the Judge, remarking that it was a disgraceful case, dismissed the summons as out of his jurisdiction.

BIG BEND.—The latest news from this locality was received last night. It is reported that a man known as "Black Hawk" has struck a rich prospect in the bank on French Creek. The claim had been abandoned by its former owners. He took out seventeen ounces in one day. Mons. B. Deffis has been badly injured in his claim on French Creek by some timber falling on him. Seventy-five ounces of B. B. dust have been received at Yale.

OSWEGO IRON WORKS, OREGON.—Mr Hubbard, of San Juan Island, who has returned from Oregon, has presented us with specimens of Oregon ore from Oswego, a town situated on the Willamette River, six miles south of Portland. Oswego is destined to become the centre of a great iron producing district. The ore abounds in the locality in great quantity, and a company, with a capital of \$500,000, is already in successful operation.

ACCIDENT TO THE STEAMER "FORTY-NINE." Mr George E. Nias informs us that while the steamer Forty-Nine was endeavoring to stem the current at the Little Dalles, on the Columbia River, on the 16th inst., a floating tree got under the hull and fouled the rudder. The steamer took a sheer and tore out the captain, to which a line had been made fast, and seriously damaging the vessel. She got back to Colville with difficulty, and is laid up for repairs.

FOR PETROPOLSKOI.—The bark Onward, Captain Tibbets, was towed out of the harbor yesterday on her way to the above port. She is deeply laden with coal and other supplies for the Telegraph Company, having filled up here with wire from the ship Mohawk. A party of friends accompanied the steamer outside to bid farewell to Captain Tibbets and the jolly fellows who proceeded with him to the far north.

COMMITTED FOR TRIAL.—The Chinese cook appeared yesterday on remand in the Police Court, charged with rape. The evidence of Drs Davis, Sen's and Jun'r was taken as to the nature of the injuries sustained by the child, and the infection communicated, when the prisoner was committed for trial at the next Assizes.

SPECIAL EXPRESS.—Diaz & Nelson's British Columbia express arrived last evening by canoe from Fraser River, in charge of Mr George E. Nias, of this city, who is just down from Seymour. Six passengers came in the canoe. The express left New Westminster on Tuesday.

THE "ALEXANDRA" carried away a fair freight, and about 15 passengers, for New Westminster, yesterday. She will return on Saturday afternoon.

CHANGE OF HOUR.—The Fidelity will not sail for Portland until 2 p. m., on Saturday, instead of at 8 a. m. The change is made to receive the British Columbian Express per Alexandra.

FATAL ACCIDENT.—The *B. C. Tribune* records the death of a young Switzer, named Frederick Enderline, at Boston Bar, a few days ago. Deceased was engaged in mining and was crushed beneath a bank of earth. The remains were interred at Yale.

ANOTHER LARGE SUGAR SALE.—Mr McCrea will hold another extensive sale of S. I. Sugars, on Messrs Janion, Green & Rhodes' wharf, on Tuesday next, commencing at 11 o'clock. Some 1500 kegs will be sold without reserve, on a liberal credit.

FOR NANAIMO.—The steamer Emily Harris, Captain Frain, left yesterday for the above port, taking a few passengers.

200. Two hundred shares in the Alberni Copper Mining Company will be sold to-day by Mr Backus.

SIR JAMES DOUGLAS, accompanied by Hon Donald Fraser, paid a visit to Leech River yesterday.

Administrator Birch will start this week for Cariboo.

The Yale road tolls last week were \$801 90.

GROUSE CREEK
The Heron co's have bottomed the shaft they were sinking in their drift at 10 feet, and find prospects of from \$2 to \$10 to the yard; their pay dirt about 6 feet in depth. They will commence to run an incline at once. No other strikes have been made this week.

ANTLER CREEK
We have heard that Springer & Co., who have been prospecting on the flat on which Murry's store is situated, struck a good prospect the other day. We have been unable to learn the particulars.

LAST CHANCE CREEK
Australian co's, the original number of shareholders in this co's was 16, but the number has been reduced to 2 members, who employ 14 men. During the last 4 years, the company have run a tunnel 1300 feet which will be continued 500 feet more before they will breast out; they got a little pay all the while. Duvoen co's, this company have been making about \$12 a day, but their ground is now nearly worked out. Old Discovery co's are working ground for the fourth time, and making wages. Gre co's are working shallow ground towards the head of this creek and making wages. There are 20 white men and 20 Chinamen at work on this creek.

DAVIS CREEK
Capt. Evans & co's (shaft), six white men and two Chinamen are employed; this company are making good wages. Prior co's, four men at work dynamiting, have not washed up yet; this company are also employed bringing in a ditch two miles long from another creek, as water is very scarce. Mills & co's are at work dynamiting, about half a mile above the last named company, have not washed up yet. There are 13 white men and 8 Chinamen on this creek.

CHISHOLM CREEK
A man named W. Williams is making \$5 and \$6 a day working by himself in an old tunnel run by Capt. Evans. Montgomery co's, three men working in the creek, and making small wages; have been running a tunnel for the last three years but abandoned it lately.

FOUNTAIN CREEK
Near Beaver Pass, is being worked by a number of Chinamen; the ground is only about three feet deep and pays Chinese wages.

IDAHO
The following is from the *Statesman* of the 10th and 12th:
Just before the stage left Ruby on Sunday morning, another miner, Watson, arrived from the besieged party, bringing the welcome news that the Indians broke up their camp and left early Friday morning. The messenger did not meet the volunteers, but crossed their trail beyond Flint. Captain Jennings sent him in after the Indians left to bring recruits to follow the Indians and punish them, his own party being too weak for that purpose. His reinforcements must have arrived on Sunday afternoon.

We understand that Mr Loeb, of Placerville, had the sum of \$8,000 stolen from his cellar, where the money was secreted. Search was made for it after it was missing, and all but \$700 found secreted, between two buildings covered with dust and gunny-sacks. Mr Loeb had received \$400 of it in payment from the person supposed to have stolen the dust, before it was missed.

On Sunday morning last the streets of our city were jammed up with teams, freight wagons and pack animals, all discharging freight for this place. This don't look much as if this camp was played out. A few thousand of people can be rushed into the streets at any time, on thirty seconds' notice, by a cry of "fire" or "fight."

Sunday night a haul was made at the saloon on the corner of Wall and Montgomery streets, Idaho City, of six hundred dollars in gold dust. The robber made good his escape, taking the money with him. An officer is in pursuit.

A fracas occurred on Grimes' creek, below Hog'em, last week, resulting in the death of a Chinaman. We understand that a suit had been pending between Tom Wilson and the Chinaman about some mining ground, which was decided in favor of the Chinaman. The parties meeting on the claim soon after, a fracas occurred, a shovel was handled, and a Chinaman killed. Wilson was arrested and confined in the County Jail.

Some one entered the room in the rear of the Red Wing saloon, last Tuesday, and robbed a drawer in one of the tables of a purse of dust valued at \$1,800. The purse had been accidentally left in the drawer but a few minutes previous. It belonged to A. J. Bailey, Henry Garfield and Penchey.

Mr James Crow arrived here from the Blackfoot country, on Wednesday, after several months' absence from Idaho. He said the man who will leave the Boise Basin for such mining camp as the Blackfoot country, is a d—d fool, that it is not one-half the mining camp that this Basin is. Mr Crow ought to know, for he spent a winter there.

A WESTERN OBITUARY.—J. Bangs, we are sorry to say, has deceased. He departed this life last Monday. Jem was generally considered a good teller. He went forth without a struggle, and such is life. To-day we are as pepper-grass—mighty smart—to-morrow we are cut down like a cowman on the ground. Jem kept a nice store, which his wife kept white on. His verbiage was numerous to behold. Many is the thing we got at his grocery, and we are happy to state to the admiring world that he never cheated, specially in the wait of mackerel which was nice, and smelled sweet, and his surviving wife was the same way. We never heard from him to put sand in his shagger the he had a big sand bar in front of his house, nor water in his liquors, though the Ohio river runs past his door. Peace to his remains. He leaves one wife, 7 children, 1 cow, a grocery store and other quadrupeds, to mourn his loss but in the language of the poet, his loss was their eternal gain.

DIFFERENT SEX.—"What are you making, my little scampster?" asked a visiting lady to one of the scholars. "Is it a chemise?" "No my lady," replied the child, bashfully, "it's a chemise."

FACTS vs THEORIES.
"Give me a place to rest my lever," says Archimedes, "and I will move the world." "Give me pure and undiluted drugs," says Mediceus of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let medicine of the olden time, and all no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billous, Dyspeptic, and Diarrhoea Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel*. 27*

A New and Grand Epoch in Medicine! Dr. MAGGIEL is the founder of a new Medical System! The quackeries, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one box of his extraordinary Pills, and cures the most violent cases with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctor have been superadded to the already famous preparations of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of a dozen, upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which cure has full taken absolute necessity for another. One or two of Maggiel's Pills suffice to place the bowels in perfect order, the stomach, create an appetite, and render the spirits light and buoyant! There is no gripping, and no reaction in the form of constipation. If the liver is affected, its functions are restored, and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Eruptions and eruptive diseases are utterly extinguished by the disinfectant power of Maggiel's Salve. To facts is here announced that Maggiel's Billous, Dyspeptic and Diarrhoea Pills cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all ailments of the skin, Maggiel's Salve is infallible. Sold by J. MAGGIEL, 11 Elm Street, New York, and all Druggists, at 25 cents per box.

GENTS.—Having used and witnessed the beneficial effects of PERRY DAVIS' PAIN KILLER, I take great pleasure in recommending it to the public as the very best Family Medicine with which I am acquainted. In this establishment are employed nearly one hundred persons, and your PAIN KILLER has been used with the most astonishing result. For FOUR YEARS not a single severe case of Cholera, Summer Complaint, or Dysentery, but has yielded like magic to the curative powers of the "killer;" and for Cuts, Bruises, etc., it is in almost daily use, and with like good effects.

JOHN TANNER, Foreman of Wrightson & Co's Printing Establishment, Cincinnati, Ohio. Sold by Druggists and all Dealers in Family Medicines.

HOLLOWAY'S PILLS.—The variable temperature and damp weather fearfully tell on the human frame, deteriorating the blood and producing morbid results in its reservoir—the lungs. Hence, on all sides we are surrounded by bronchitis, pleurisy, asthma, consumption, all of which might be readily cured by Holloway's never-failing remedies, whose active principle purifies the blood, and causes all morbid matter to be speedily expelled from the body. In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they infallibly correct female complaints in young and old, delicate and robust.

DIFFERENT AS LIFE FROM DEATH.—This is the distinction between *Bristol's Sarsaparilla* and all Mercerial Medicines. The latter poisons the blood, the former purifies and invigorates it. When seeds of death have been introduced into the veins by the use of mineral nostrums nothing will arrest the march of the victim to the grave save this poison-convulsing antidote. So also when the virus of natural diseases, working through the venous system, is developed in scrofulous ulcers, tumors, carbuncles, white swellings, felon's eruptions, or any other fearful external malady this great remedy acts chemically upon the depraved blood and other animal fluids, changing them as if by a miracle, to pure and nourishing streams, bearing health and vigor into the organs through which they flow. For sale by all Druggists.

22.—The best Remedy for Purifying the Blood, strengthening the Nerves, restoring the Lost Appetite, and curing all Skin Diseases, is FRIESE'S HAMBURG TEA. It is the best preservative against almost any sickness, and is equally good for infants. It can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT! For sale at all the wholesale and retail drug stores and groceries.

SOMETHING THE WHOLE COMMUNITY SHOULD KNOW.—The traveler, furnished with *Bristol's Sugar Coated Pills*, is armed against those diseases of the stomach, liver, and bowels, common to all climates. The first thing to be done, in case of a bilious attack, is to empty the bowels. *Bristol's Sugar Coated Pills* do this rapidly, and not rudely. As they cleanse, they soothe and heal. There is an excellent principle in them that prevents the irritation which through purgation would otherwise create. None of the sharp, cutting, spasmodic pains, which accompany the action of mineral cathartics, are ever experienced during their operation. They have no drawback, either immediate or contingent, and leave every organ free to influence in a healthy state. For dyspepsia, piles, liver complaint, sick headache, suppression, vertigo, colic, and heartburn, they are the one thing needful, and no other remedy can so speedily and so safely be used. Retain their properties unchanged in all climates, being put up in glass vials. In all cases arising from, or aggravated by impure blood, *Bristol's Sarsaparilla* should be used in connection with the Pills. For sale by all Druggists.

THE GRAND PROMC

FACTORS OF HEALTH.

HOLLOWAY'S PILLS

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures.

Derangement of the Bowels, Liver and Stomach Complaints

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, as to astonish every one. It pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of this invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and mild and easy assimilation restored, so that both physical and moral energy are increased.

Determination of Blood to the Head.
This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended, frequently terminates fatally. A few doses of these most pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend
For all debilitating disorders peculiar to the sex and every contingency perilous to the life of women, young or aged, married or single, this mild but speedily remedied is recommended with friendly earnestness. It will correct all functional derangements to which the sex are subject.

Scrofula and all Skin Diseases.
For all skin diseases, however inveterate, these me-

Coughs, Colds and Asthmas.

Indigestion—Billious Headache.
These complaints may sometimes be considered trifling, but it should be borne in mind that by inattention or neglect, they often end most seriously. Give early thought to a deranged stomach take Hobday's Pills, or his celebrated Ointment over the pit of the stomach, and

you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. This improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known for the following diseases:

Ague	Female Irregularities	Scrofula	Kings
Asthma	Itches	Evil	
Bilious Complaints	Fever of all kinds	Sore Throat	

Blotches on the skin	Fits	Stone and Gravel
